ACKNOWLEDGMENTS

The currency and coverage of the ProFile service depends largely upon the efforts of the individuals within each jurisdiction who forward new publications to the publisher for indexing and microfilming. We are grateful to these persons for their assistance.

All publications included in ProFile are copyright by the official printers of the jurisdictions covered, and are reproduced with the permission of these agencies.

REMERCIEMENTS

La précision, la fidélité et l'utilité des renseignements que permet d'obtenir le service ProFile dépendent pour une grande part des efforts des personnes qui, dans chaque juridiction, envoient à l'éditeur de nouvelles publications pour être mises à l'index et sur microfiches. Nous leur exprimons notre reconnaissance pour l'assistance qu'elles nous apportent.

Les éditeurs officiels des juridictions impliquées détiennent les droits de reproduction réservés pour toutes les publications figurant à l'Index ProFile et celles-ci sont reproduites avec l'autorisation de ces agences.

THE PROFILE SERVICE

ProFile is a subscription service to the current publications of the following Canadian provinces and territories.

Alberta
British Columbia
Manitoba
New Brunswick
Newfoundland
Nova Scotia
Ontario
Prince Edward Island*
Quebec
Saskatchewan
Northwest Territories
Yukon Territory

These publications are issued monthly on microfiche, accompanied by the ProFile Index, which lists the publications included in the service by author and subject.

The service does not include every publication issued by these governments. To do so would place the price and volume of the service beyond the means and interests of most subscribers. Instead, an effort is made to select from the large numbers of publications issued only those that are of general, lasting reference value.

Types of Publication Included in ProFile

Only publications issued after January 1, 1973 qualify for inclusion.

Serials

Annual reports
Bibliographic aids
Budget statements
Estimates
Public accounts
Statistical summaries

Monographs

Board, Committee,
Commission reports
Official plans
Organization manuals,
directories
Planning reports of
general interest
Research studies
Royal commission reports
and studies

Types of Publication Excluded from ProFile

Gazettes	Regular periodicals (newsletters, bulletins, journals, weekly or monthly statistical reports)
Hansards	Decisions of courts and administrative tribunals
Journals	General information pieces (e.g. <i>Prevention of the Budworm</i> , or <i>Management Courses Offered by Community Colleges</i>)
Minutes	Publications aimed at a local or specialised audience (e.g. Department of Education course outlines; geological surveys of local areas; minor planning studies)
Statutes	Public relations publications
Bylaws	
Regulations	
Ephemera	
Maps	

As a rule, excluded publications are:

- readily available (and in many cases preferable to have) on paper by current subscription or through mailing lists.
- general information available elsewhere.
- of highly specialised or local interest.
- ephemeral

Government Bodies Covered

Generally, the service covers the publications of all departments, ministries, boards, branches, committees and commissions reporting *directly* to the governments listed above.

Not included are the publications of boards of education or other bodies which, although they may be funded by the governments concerned, report to a board of directors or other independently elected officials, and as such are not directly responsible to the governments covered.

Currency

Every attempt is made to minimize the time lapse between the issuance of a publication and its appearance in ProFile. On the average, documents should appear in the Index about two months after their publication date.

* Copyright clearance for the publications of this jurisdiction is still under consideration; these will be included if and when this clearance is received.

LE SERVICE PROFILE

Ces publications sont distribuées aux souscripteurs tous les mois sur microfiches, accompagnées par l'Index ProFile, qui contiendra les publications comprises dans le service par auteur et sujet.

Le service ne comprend pas tous les documents publiés par ces juridictions. Pour réaliser ceci, le coût et le volume de service seraient trop élevés et peu intéressants pour la plupart des souscripteurs. Nous nous efforçons de choisir des publications qui représentent des pièces de référence de valeur durable.

Genres de publications incorporées par ProFile

Seulement les publications qui paraîtront à partir du 1er janvier 1973 font partie du service.

Genres de publications exclues

Gazettes	Publications périodiques (nouvelles, bulletins, journaux ou rapports statistiques mensuels ou hebdomadaires)
Comptes-rendus (Hansards)	Décisions des tribunaux administratifs
Journaux	Pièces d'information courante (c.à.d. <i>Cours Administratifs offerts par les CEGEP's</i>)
Minutes	Publications à l'attention d'un public local ou spécialisé (c.à.d. détails sur les cours du Ministère de l'Éducation; recherches géologiques dans les régions locales; études de planification mineures)
Statuts	
Arrêtés	
Règlements	
Ephéméra	
Cartes	

En règle générale, les publications non incorporées sont les suivantes:

- Celles facilement disponibles (et dans plusieurs cas qu'il est préférable d'avoir) sur papier grâce à un abonnement courant ou par service postal
- Les informations d'ordre général disponibles auprès d'autres sources
- Celles couvrant des sujets spécialisés ou d'intérêt local
- De nature éphémère

Corps gouvernementaux auxquels s'adresse ce service

Ce service est réservé aux publications de tous les services, ministères, conseils, directions, comités, et commissions qui rendent compte directement aux gouvernements figurant sur la liste ci-dessus.

Ne sont pas incluses les publications des commissions scolaires, des corporations de la couronne, ou autres corps qui, bien que pouvant être financées par les gouvernements intéressés, rendent compte à des conseils d'administration ou autres fonctionnaires élus de façon indépendante, et qui, de ce fait, ne sont pas directement soumis à l'autorité des gouvernements auxquels est réservé ce service.

Parutions

Tout est mis en oeuvre pour minimiser le laps de temps entre la parution d'une publication et son inscription dans l'Index ProFile. Généralement, les documents apparaissent à l'Index environ deux mois après leur publication.

* La permission pour la reproduction des publications de ces juridictions est sous étude; celles-ci seront incorporées au fur et à mesure que la permission est accordée.

HOW TO USE THE PROFILE INDEX

If the type of publication desired falls within the above definitions, it will likely be included in the service and be available on microfiche. These are accessible through the ProFile Index.

Before searching for a particular publication on microfiche, users should determine whether the library in which they are working receives the desired microfiche. (See list of subscription plans available.) If it does not, users are advised to consult a member of the library staff for further assistance.

Libraries holding partial subscriptions may follow the practice of marking the Index entries for those publications for which they hold microfiche.

The Index is divided into two sections, so that publications may be located by author or subject.

THE AUTHOR INDEX

This is a complete listing of the publications included in the service by jurisdiction and corporate and individual author.

Sample entry

Nova Scotia/Nouvelle-Ecosse

Council of Health. "One in five;" a survey of adolescent health care. Halifax, 1973. 86 p. *By David Reilley and H.E. Newell.*

74-0015

1 fiche

Fiche accession number. Two-digit prefix indicates year of appearance in the service

Number of microfiche covered by publication

Once the required publication is located through the Author section, the document may be quickly retrieved by searching the microfiche file, arranged in numerical order by fiche accession number. (Some libraries may depart from this arrangement, preferring instead to use their own classification or cataloguing system. In this case, users should follow normal library procedure to locate publications in ProFile.)

Personal Names and Variant Titles

The main entries in the Author Index appear under the corporate author--that is, the government body responsible for issuing the publication. However, since many government publications are written by individuals or non-government groups (such as consulting firms) whose names appear on the title pages, reference is often made to these authors rather than to issuing bodies in citing publications. Also, government publications often become known by titles other than their official ones. This applies especially to commission reports, which tend to be cited by the name of the chairman (e.g. the *Parent Report* or the *Worth Report*). The Author Index includes "see" references from personal names and variant titles of this nature to main entries.

THE SUBJECT INDEX

This is divided into two parts: the first lists subject references to English-language publications; the second, to French-language publications. Each part uses the same descriptors or subject heads. This division facilitates the use of the Index and microfiche for monolingual users; persons interested in publications in both languages may locate equivalent sections easily by using the translation given for each descriptor.

The division of the Subject Index into fourteen broad interest areas allows a user wishing to remain abreast of developments in one of these areas to do so quickly by scanning the relevant subdivision in each issue as it appears. These divisions also correspond to the subject areas in which microfiche subscriptions are available.

The descriptors used in the Subject Index are broad, umbrella terms (see pages 7 and 8 for a list of them). No proper names are used. This practice has been adopted because many of the publications included are so broad and comprehensive in the subjects that they cover (viz. the annual report of a Department of Social Services) that the cost of in-depth indexing would be disproportionate to the benefits resulting.

Sample entry

Wildlife/Faune

Ontario. Min. of Natural Resources. Ontario land inventory methodology series: Wildlife. **74-0042**

Once a required publication is located through the Subject section, the user may either go back to the Author section for more bibliographic information or go directly to the publication in the microfiche files.

THE TITLE INDEX

This is a bilingual listing of meaningful titles from the bibliographic data base. These are listed alphabetically according to the first significant word (ie. words such as an, the, report on, etc. are dropped from the beginning of the title). English and French titles are interfiled. Once a title is located, the issuing body and fiche accession number follow enabling the user to easily retrieve the document. Titles excluded from this Index are those of a serial nature, eg. annual reports; budgets; public accounts, etc. which are easily located under their issuing bodies in the Author Index.

Sample entry

Assessment of the program in French as a second language. (Alberta. Dept. of Education.) **76-0345**

RULES OF ENTRY

Alphabetization

Word-by-word alphabetization is used. Thus, "Dept. of Communications" precedes "Dept. of the Attorney General".

Order of Authors

The hierarchical principles set out in *Anglo-American Cataloging Rules* determine the form of entry used in the Author Index. These stipulate that any subordinate government agency (Branch, Board, Commission, Division) should be listed under its own name unless this same name is or is likely to be used by other agencies as well, in which case the next-highest distinctively-named body should be shown as well.

Thus, the Corrections Branch of a Department of the Attorney General will appear under its own name, while the Research Branch will be shown as "Dept. of the Attorney General. Research Branch."

When the name of the jurisdiction occurs at the beginning or end of the body's name (e.g. Ontario Economic Council), it is omitted from the entry unless objectionable distortion results.

Thus, "Manitoba Liquor Control Commission" appears as "Liquor Control Commission". But "B.C. Railways" appears as is.

When searching for a particular body, it is advisable to check both forms of entry.

Language

The language of any publication included in ProFile is that of the original publication, be it English or French. If publications are issued in two separate language editions, both will be included, on the same fiche if possible. The language in which a publication is shown in the Author Index is that of the original publication. Bilingual publications are listed in both languages, in two separate entries. The Subject Index lists publications by language, so that English-language publications appear in the "Subject Index" and French-language publications in the "Index des Matières". Bilingual publications appear in both sections.

COMMENT SE SERVIR DE L'INDEX PROFILE

Si la publication désirée répond aux exigences des définitions ci-dessus, elle entrera vraisemblablement dans le cadre de ce service et figurera sur les microfiches. Ces dernières peuvent être obtenues au moyen de l'index ProFile.

Avant de rechercher une publication particulière sur microfiche, les usagers doivent vérifier si la bibliothèque où ils travaillent reçoit la microfiche désirée (voir la liste des programmes d'abonnements disponibles).

Si la bibliothèque ne la reçoit pas, les usagers sont invités à se renseigner auprès du personnel de la bibliothèque pour se faire aider utilement. Les bibliothèques ayant des abonnements partiels peuvent procéder à l'inscription sur l'index des publications pour lesquelles elles détiennent une microfiche.

L'Index comporte deux sections, de façon à ce que l'on puisse retrouver les publications par auteurs ou par sujets.

INDEX DES AUTEURS

Il s'agit de la liste complète des publications auxquelles est réservé le service, établie par auteurs, qu'il s'agisse d'une juridiction, d'un corps constitué ou d'une personne.

Modèle d'inscription

Québec

Nombre de microfiches existant par publication

3 fiche

Une fois que la publications recherchée est repérée dans l'Index des auteurs, le document peut être rapidement retrouvé en cherchant dans le fichier des microfiches, classées par ordre numérique selon leur numéro matricule. (Certaines bibliothèques peuvent classer les microfiches d'une autre manière, préférant utiliser leur propre système de classification. Les usagers devront alors suivre le procédé adopté par la bibliothèque pour retrouver les publications dans l'Index ProFile.)

Noms de personnes et titres à variante

Les principales inscriptions de l'Index des auteurs apparaissent sous le nom de l'auteur correspondant—qui est le corps gouvernemental responsable de l'édition. Cependant, de nombreuses publications gouvernementales sont rédigées par des particuliers ou des groupes n'appartenant pas au gouvernement (tels que des agences de conseils) dont les noms apparaissent sur les pages de couverture. C'est pourquoi l'on cite plus souvent le nom de ces auteurs plutôt que ceux des corps gouvernementaux éditant les publications. De même, les publications gouvernementales finissent par être connues sous des titres différents de leurs titres officiels. C'est en particulier le cas des rapports de commissions, qui ont tendance à être cités sous le nom du président (exemple, *le rapport Parent* ou *le Rapport Worth*). L'Index des auteurs contient des renvois rattachant de tels noms de personnes et de tels titres aux principales inscriptions.

L'INDEX DES SUJETS

Il est composé de deux sections: la première donne la liste des sujets des publications éditées en anglais; la deuxième donne la liste des publications éditées en français. Chaque partie utilise les mêmes titres descriptifs ou de sujet. Il est ainsi plus facile aux usagers unilingues de se servir de l'Index et des fiches; les personnes qui s'intéressent aux publications dans les deux langues peuvent facilement repérer les sections correspondantes en se servant de la traduction fournie pour chaque description.

L'index des sujets est divisé en quatorze secteurs d'intérêt, ce qui permet à l'utilisateur désirant se maintenir au courant des développements dans l'un de ces secteurs, d'y parvenir rapidement en examinant la subdivision correspondante dans chaque numéro, aussitôt que paru. Cette division correspond également à des domaines d'intérêt pour lesquels des abonnements de microfiches sont disponibles.

Les titres descriptifs, utilisés dans l'index par sujets, n'entrent pas dans les détails, ce sont des termes généraux (la liste de ces titres est donnée sur pages 9 et 10). On n'emploie pas de noms précis. Ce principe fut adopté parce que de nombreuses publications figurant à l'Index traitent au complet des sujets tellement nombreux (par exemple, le rapport annuel d'un ministère des Services sociaux) que le coût d'un répertoire détaillé serait hors de proportion avec les avantages que l'on pourrait en tirer.

Modèle d'inscription

Comptes publics/Public accounts

Québec. Min. des finances. Etats financiers du Québec pour l'année terminée le 31 mars 1973. 74-0054

Une fois que la publication désirée est repérée dans l'Index des sujets, l'utilisateur peut revenir à l'Index des Auteurs pour obtenir davantage de renseignements bibliographiques ou rechercher directement la publications dans les fichiers (de microfiches). Dans un cas comme l'autre il faut utiliser le numéro matricule de la fiche.

L'INDEX DES TITRES

Il s'agit d'un répertoire bilingue de titres importants de la base de données bibliographiques. La liste est présentée sous forme alphabétique d'après le premier mot important (p. ex. on a laissé tomber les mots comme un, le, rapport sur, etc., au début du titre). Les titres anglais et français figurent au même répertoire. Une fois qu'on a trouvé le titre, celui-ci est suivi du nom de l'organisme qui le publie et du numéro de la fiche d'acquisition, ce qui permet

à l'utilisateur de retrouver facilement le document.

Les titres exclus de cet index sont ceux qui ont un caractère de série, par exemple, les rapports annuels; les budgets; les comptes publics, etc., que l'on trouve facilement sous le nom de l'organisme qui les publie dans l'index des auteurs.

Modèle d'inscription

Basse-Ville ouest. Plan de développement. (Ottawa). Dépt. du développement communautaire. Direction de l'urbanisme. 76-0980

REGLES A RESPECTER POUR LES INSCRIPTIONS

Ordre alphabétique

L'ordre alphabétique est employé mot pour mot (ainsi, "Ministère de l'éducation" précède "Ministère des communications").

Langue

La langue des publications figurant dans l'index est celle de la publication originale, que ce soit l'anglais ou le français. Si les publications sont éditées en deux versions linguistiques distinctes, toutes deux seront, si possible, comprises sur la même fiche. La langue de la publication figurant dans l'Index des auteurs est celle de la publication originale. Les publications bilingues sont inscrites dans les deux langues. L'index des sujets dresse la liste des publications en fonction de la langue. C'est ainsi que celles publiées en anglais apparaissent dans "the Subject Index" et celles publiées en français dans l'Index des matières. Les publications bilingues apparaissent dans les deux sections.

Classement par auteurs

Les principes hiérarchiques établis dans "Anglo-American Cataloging Rules" déterminent la forme d'inscription utilisée dans l'index des auteurs. Ces principes stipulent que toute agence gouvernementale secondaire (direction, conseil, commission, division) doit être inscrite sur la liste sous son propre nom, à moins que celui-ci soit ou ait des chances d'être utilisé également par d'autres agences. Dans ce cas, le nom de l'organisme placé immédiatement au-dessus et nommé distinctement doit être mentionné également. (En conséquence, la Direction correctionnelle d'une Ministère du Procureur-général apparaîtra sous son propre nom, tandis que la Direction des recherches sera mentionnée sous le titre de "Ministère du Procureur-général. Direction des recherches".)
